In diesem Vergleichslistenteil sind alle Artikel-Nummern sowohl von Fahrzeug- und Motorenherstellern als auch von anderen Filterherstellern mit den einbaugleichen MANN-FILTER Bezeichnungen und einem Hersteller-Code in alphanumerischer Reihenfolge enthalten, für die es einbaugleiche MANN-FILTER gibt.
Beachten Sie bei der Benutzung folgende Hinweise: Beginnen Artikel-Nummern mit einer oder mehreren Nullen, so sind in der Sortierfolge diese Stellen nicht berücksichtigt. Ebenso werden Punkte oder Striche in den Artikel-Nummern nicht berücksichtigt. Nach den numerischen Bezeichnungen sind die alphanumerischen Artikelbezeichnungen in gleicher Sortierfolge aufgelistet.
Bei jeder Artikelnummer ist ein Hersteller-Code aufgeführt. Auf Seite 664-668 sind dem Code die vollständigen Herstellernamen gegenübergestellt. Hin und wieder gibt es identische Artikelnummern, die von verschiedenen Herstellern verwendet werden. Aus diesen Gründen sollte immer der Hersteller überprüft werden, um die Richtigkeit der Umschlüsselung zu gewährleisten. Oftmals bieten Wettbewerber für mehrere MANN-FILTER Typen einen „Einheitsfilter“ an, so dass dann für ein solches Teil mehrere MANN-FILTER Typen gegenübergestellt werden. In diesen Fällen kann die Auswahl des Filters nur über die Fahrzeugverwendung des Filters und/oder über weitere Produktangaben, wie sie in unserem Online-Katalog enthalten sind, erfolgen.

English

This section of the cross reference list contains all article numbers both of vehicle and engine manufacturers and of other filter manufacturers with the same MANN-FILTER installation descriptions and a manufacturer code in alphanumeric sequence for which identical MANN-FILTERs are available.
Please note the following when using this section of the list: if article numbers start with one or more zeros, these items are not taken into account in the sorting sequence. Commas or dashes in the article numbers are not taken into account either. The alphanumeric article descriptions are listed in the same sequence according to the numerical descriptions.
A manufacturer code is listed for every article number. The full manufacturers names are listed opposite the code on page 664-668. There are a few identical article numbers which are used by different manufacturers. For these reasons, the manufacturer should always be checked to ensure the accuracy of the code. Competitors often offer a “standard filter” for several MANN-FILTER types, which means that several MANN-FILTER types are compared for such a part. In these cases, the filter can only be selected based on its use in the vehicle and/or other product details as stipulated in our online catalog.

Français

La table de correspondances de pièces de rechange mentionne d’une part tous les numéros d’articles des constructeurs de véhicules et de moteurs, ou d’autres fabricants de filtres avec désignation des types identiques MANN-FILTER, et d’autre part un code par ordre alphanumérique des fabricants pour lesquels existent des filtres MANN-FILTER de type identique.
Respectez les règles d’utilisation suivantes: si les numéros d’articles commencent par un ou plusieurs zéro, ces positions ne sont pas prises en considération dans l’ordre de classement. Il en est de même pour les points et traits d’union dans les numéros d’articles. Conformément aux désignations numériques, les désignations alphanumériques des articles suivent le même ordre de classement.
Chaque numéro d’article est associé à un code fabricant. Vous trouverez la liste des codes et des noms de fabricants à la page 664-668. Il arrive fréquemment que différents fabricants utilisent des numéros d’articles identiques. C’est pourquoi il est toujours impératif de vérifier le nom du fabricant pour garantir l’exactitude du code de référence. Les autres fabricants de filtres proposent souvent un ”filtre standard” correspondant à plusieurs types de filtres MANN-FILTER; plusieurs désignations de filtres MANN-FILTER sont ainsi placées en face de cette référence. Dans ces cas, le choix du filtre dépend uniquement de l‘utilisation du véhicule et/ou d‘autres indications sur le produit telles qu‘indiquées dans notre catalogue en ligne.

Questa sezione della lista comparativa elenca in ordine alfanumerico tutti i numeri degli articoli, per i quali esistono dei MANN-FILTER dalle caratteristiche di installazione simili, relativi ai costruttori di veicoli e di motori nonché ad altri costruttori di filtri ed aventi le medesime denominazioni di installazione MANN-FILTER ed un codice costruttore.
Gli zeri eventualmente presenti all’inizio dei numeri degli articoli nonché i punti o i trattini al loro interno non vengono presi in considerazione nell’elaborazione dell’ordine di sequenza. Dopo

quelle di carattere numerico, anche le denominazioni alfanumeriche vengono elencate secondo il medesimo ordine di sequenza. Ad ogni numero di articolo è associato un codice costruttore. A pagina 664-668 si trova la corrispondenza tra i vari codici ed i nomi completi dei rispettivi costruttori. Poiché i medesimi numeri di articolo vengono talvolta utilizzati da costruttori diversi, è necessario controllare sempre il costruttore per assicurarsi dell'esatta interpretazione dei codici. Spesso-i concorrenti offrono per diversi tipi di MANN-FILTER uno stesso filtro normale, facendo sì, di conseguenza, che ad una di queste parti vengano poi associati più tipi di MANN-FILTER. In questi casi, il filtro può essere selezionato solo tramite l'uso del filtro da parte del veicolo e/o tramite ulteriori informazioni sul prodotto contenute nel nostro catalogo online.

Español

En esta parte de la lista comparativa aparecen todos los números de artículo, tanto de-los fabricantes de vehículos y motores como de otros fabricantes de filtros con la denominación de idéntico montaje de MANN-FILTER y un código de fabricante en orden alfanumérico, para los cuales existen MANN-FILTER de idéntico montaje.
En su utilización, tenga presente las siguientes advertencias: si los números de artículo comienzan por uno o varios ceros, significa que estos dígitos no se han tenido presentes en-la serie de clasificación. Del mismo modo, no se han tenido en cuenta los puntos o los-guiones en los números de los artículos. Las designaciones de los artículos en orden alfanumérico aparecen listadas según la misma clasificación después de las designaciones numéricas.
Junto a cada número de artículo se indica un código de fabricante. En la página 664-668 aparecen frente al código el nombre completo del fabricante. Distintos fabricantes utilizan a-veces números de artículo idénticos. Por esta razón siempre debe comprobarse también el-nombre del fabricante para segurarse que las claves estén correctamente asignadas. A-menudo, los fabricantes de la competencia ofrecen un „filtro unitario" para varios tipos de MANN-FILTER, de modo que a esa pieza le corresponden varios tipos de MANN-FILTER. En estos casos, el filtro solo se puede seleccionar a través del uso del vehículo del filtro o a través de la información adicional del producto que figura en nuestro catálogo en línea.

В тази част на еталонния списък се съдържат всички номера на артикулите както на производителите на автомобилите и моторите така и на други производители на филтри с наименованията на същите филтри на фирма MANN-FILTER и код на производителя в азбучна последователност, за които има същите филтри на фирма MANN-FILTER.
При използване спазвайте следните указания: Ако номерата на артикулите започват с една или повече нули, то тези места не са взети под внимание при последователността на сортиране. При номерата на артикулите също не са взети под внимание точки или чертички. След числовите наименования в същата последователност на сортиране са изброени азбучните наименования на артикулите.
Към всеки номер на артикул е посочен код на производителя. На стр. 664-668 към кода са посочени пълните имена на производителя. От време на време се срещат идентични номера на артикули, които се използват от различни производители. По тази причина за да се осигури точността на прекодиране, винаги трябва да се проверява производителя. Често пъти конкурентите предлагат "унифициран филтър" за няколко типа филтри на фирма MANN-FILTER, така че в такъв случай на един такъв се противопоставят няколко типа филтри на фирма MANN-FILTER. В тези случаи изборът на филтър може да стане само чрез използване на филтъра в превозното средство и/или продуктови характеристики, съдържащи се в нашия онлайн каталог.

W tej części listy porównawczej podane są w kolejności alfanumerycznej zarówno numery artykułów producentów pojazdów i silników jak i numery artykułów innych producentów filtrów w zestawieniu z oznaczeniami filtrów MANN-FILTER, identycznych pod względem zabudowy, i kodami producentów, dla których istnieją identyczne pod względem zabudowy filtry MANN-FILTER. Przy korzystaniu z listy należy przestrzegać następujących wskazówek: Jeżeli numery artykułów zaczynają się od jednego lub kilku zer, to te miejsca nie zostały uwzględnione podczas sortowania. Nie uwzględnione są również kropki i kreski w numerach artykułów. Za oznaczeniami numerycznymi podane są alfanumeryczne nazwy artykułów w tej samej kolejności sortowania.
Przy każdym numerze artykułu podany jest kod producenta. Na stronach 664-668 kody te są zestawione z pełnymi nazwami producentów. Czasami występują identyczne numery artykułów, stosowane przez różnych producentów. Z tego powodu należy zawsze sprawdzić producenta, aby zagwarantować poprawność odniesienia. Konkurenci często oferują jeden „filtr uniwersalny" dla kilku typów filtrów MANN-FILTER, przez co do takiej części przyporządkowanych jest kilka typów filtrów MANN-FILTER. W takich przypadkach filtr można wybrać tylko na podstawie pojazdu, w którym będzie użytkowany, i/lub dalszych informacji o produkcie zawartych w naszym katalogu online.

În acest fragment din lista comparativă sunt incluse toate cotele articolelor, atât cele ale producătorilor de vehicule și de motoare, cât și cele ale producătorilor de filtre având indicativ de montaj similar cu MANN-FILTER și un cod de producător în ordine alfanumerică, pentru care există filtre cu montare similară MANN-FILTER. La utilizare, se vor avea în vedere următoarele indicații: dacă există cote de articol care încep cu unul sau mai multe zero-uri, aceste poziții nu sunt luate în considerare la ordinea de sortare. De asemenea, nu sunt luate în calcul punctele sau liniuțele din cotele de articol. După indicativele numerice, sunt listate în aceeași ordine de sortare indicativele alfanumerice ale articolelor.
Fiecare cotă de articol are atașat un cod de producător. La pagina 664-668, sunt prezentate numele complete ale producătorilor având atrubuite aceste coduri. Pe alocuri există cote de articol identice, care sunt utilizate de diverși producători. Din acest motiv, este necesar să fie verificat totdeauna și producătorul, pentru a asigura o codare corectă. Deseori, concurenții oferă un "Filtru unitar" pentru mai multe tipuri de MANN-FILTER, situație în care mai multe tipuri de MANN-FILTER corespund acestei piese. În aceste cazuri, selecția filtrului se poate face numai în funcție de utilizarea filtrului la un anumit vehicul și/sau de alte specificații de produs, așa cum apar în catalogul nostru online.

V této části srovnávací listiny jsou obsažena všechna čísla výrobků jak výrobců vozidel a motorů, tak i ostatních výrobců filtrů, společně s identickými označeními filtrů MANN-FILTER a kódem výrobce v abecedním pořadí výrobků, do kterých lze zabudovat filtry MANN-FILTER.
Při použití dbejte následujících pokynů: Začínají-li čísla výrobků jednou nebo více nulami, pak nejsou tato místa v pořadí brána v úvahu. Stejně tak se neberou v úvahu tečky nebo čárky v číslech výrobků. Po číselných označeních jsou abecední označení výrobků uvedena v témže pořadí.
U každého čísla výrobku je uveden kód výrobce. Na str. 664-668 jsou ke kódům přiřazena plná jména výrobců. Občas se objeví identická čísla výrobků, které používají jednotliví výrobci. Z tohoto důvodu je vždy nutné ověřit si jméno výrobce, aby byla zajištěna správnost převedení kódu. Často je na trhu nabízen pro více druhů filtrů MANN-FILTER jeden „univerzální filtr", proto je i v listině uvedeno více typů filtrů MANN-FILTER. V takových případech je možné filtr vybrat buď jen podle použití filtru ve vozidle, nebo po zadání specifikací výrobku, které jsou uvedeny v našem online katalogu.

A kereszthivatkozás ezen fejezete alfanumerikus sorrendben tartalmazza azon összes lehetséges termékkódokat a gépjármű és motorgyártók és más szűrőgyártók termékeiről, amelyhez megfelelő MANN-FILTER szűrő elérhető. A lista a gyártó kódjával van kiegészítve.
Kérem a következők figyelembevételét a lista használatakor: amennyiben a termékkód egy vagy több nullával kezdődik, akkor ezen nullák nincsenek a sorrendben figyelembe véve. A termékkódban fellelhető elválasztó jelek, gondolatjelek, … szintén nincsenek a sorrendben figyelembe véve. Az alfanumerikus kódok is a számsorrendnek megfelelő sorrendben vannak listázva.
Minden termékhez egy gyártói kód is kapcsolódik. A gyártó teljes neve a 664-668.oldalon található meg. Létezik néhány azonos termék, amelyet több gyártó is gyárt. Ennek megfelelően a gyártót is ellenőrizni kell, hogy a megfelelő hivatkozást használjuk.
A versenytársak gyakran egy standard szűrőt ajánlanak több MANN-FILTER szűrő helyett, azaz több MANN-FILTER típus ezzel a szűrővel van megfeleltetve. Ezekben az esetekben a szűrő kiválasztása csak a szűrő gépkocsi-alkalmazásán keresztül és/vagy az online katalógusunkban rendelkezésre álló további termékadatok megadásával történhet.

Σε αυτό το τμήμα του συγκριτικού καταλόγου περιέχονται όλοι οι αριθμοί αντικειμένων, τόσο των κατασκευαστών οχημάτων και μοτοσικλετών, όσο και άλλων κατασκευαστών φίλτρων, μαζί με την περιγραφή των ΦΙΛΤΡΩΝ MANN-FILTER και με έναν κωδικό κατασκευαστή σε αλφαριθμητική σειρά, για τους οποίους διατίθενται τα ΦΙΛΤΡΑ MANN-FILTER.
Παρακαλούμε να προσέξετε τις ακόλουθες οδηγίες κατά τη χρήση: Εάν οι αριθμοί αντικειμένων αρχίζουν με ένα ή περισσότερα μηδενικά, αυτό δεν πρέπει να ληφθεί υπόψη στη σειρά ταξινόμησης των θέσεων αυτών. Επίσης δεν λαμβάνονται υπόψη οι τελείες ή οι παύλες στους αριθμούς των αντικειμένων. Οι αλφαριθμητικές περιγραφές είναι καταχωρημένες με την ίδια σειρά ταξινόμησης όπως και οι αριθμητικές περιγαφές.
Σε κάθε αριθμό αντικειμένου εισάγεται ένας κωδικός κατασκευαστή. Στις σελίδες 664-668 παρατίθενται δίπλα στον κωδικό τα πλήρη ονόματα κατασκευαστών. Ενίοτε προκύπτουν ίδιοι αριθμοί αντικειμένων, οι οποίοι χρησιμοποιούνται από διάφορους κατασκευαστές. Γι αυτό το λόγο πρέπει να ελέγχεται πάντοτε ο κατασκευαστής, ωστε να υπάρχει ορθότητα κατά την αποκωδικοποίηση. Συχνά οι ανταγωνιστές παρέχουν ένα “ενιαίο φίλτρο” για περισσότερους τύπους ΦΙΛΤΡΩΠ MANN-FILTER, έτσι ώστε να πρέπει να αντιπαραβληθούν περισσότεροι τύποι ΦΙΛΤΡΩΝ MANN-FILTER για ένα τέτοιο τμήμα. Σε αυτές τις περιπτώσεις, η επιλογή του φίλτρου μπορεί να γίνει μόνο βάσει της χρήσης του φίλτρου σε οχήματα ή/και μέσω πρόσθετων στοιχείων προϊόντων, όπως αυτά αναφέρονται στον ηλεκτρονικό μας κατάλογο.

Русский

В этой части сравнительного списка в алфавитно-цифровом порядке приведены все номера артикулов как производителей автомобилей и двигателей, так и других производителей фильтров с наименованиями, соответствующими по монтажным размерам фильтрам MANN-FILTER, и кодом производителя, для которых имеются аналогичные с точки зрения монтажа фильтры MANN-FILTER.
При пользовании списком имейте ввиду следующее: если номер артикула начинается с одного или нескольких нулей, то при сортировке артикулов эти позиции не учитывались. Не учитывались также содержащиеся в номерах артикулов точки или дефисы. После цифровых обозначений в той же последовательности сортировки перечислены буквенно-цифровые обозначения.
Для каждого номера артикула указан код производителя. На странице 664-668 для кодов приведены полные наименования фирм-производителей. Могут встречаться совпадающие номера артикулов, применяемых разными производителями. По этой причине для обеспечения правильности кода следует всегда проверять название фирмы-изготовителя. Часто фирмы-производители предлагают взамен разных типов филь-тров MANN-FILTER “унифицированный фильтр“, поэтому такому фильтру следует сопоставлять несколько типов фильтров MANN-FILTER. В этих случаях выбрать фильтр можно только через функцию фильтра в автомобиле и (или) дополнительные сведения о продукции, приведенные в нашем онлайн-каталоге.
