

# Drive better with MANN-FILTER!

Main Asian Applications for Passenger Cars

04/2024

MANN-FILTER - Perfect parts. Perfect service.

# Discover how to protect your vehicle with a MANN-FILTER product

Our innovative filters enhance your driving or operating experience as well as protecting your vehicle engine. From air, oil, fuel and cabin air filtration solutions, you'll find high quality, reliable products in our extensive range.

## Air Filters

MANN-FILTER engine air filters are built on complex science and engineering expertise. We offer a huge range of excellent engine air filters to fit most models of vehicles.

## Oil Filters

Our MANN-FILTER oil filters are designed for outstanding dirt-retention capacity and high material resistance, tailor-made for each vehicle model or machine.

## Cabin Air Filters

Our cabin filter for cars traps almost 100% of harmful particulates from the air you breathe inside your vehicle. Stay healthy in high-density traffic areas with poor air quality. Breathe easy with us.

## Fuel Filters

Fuel filters are vital for separating dirt, dust and water from your fuel. This ensures maximum fuel flow and avoids damage to car parts caused by unwanted particulates.

# Remember: Always change the oil filter and the other filters as well.

## + WHY MAKE THE CHANGE?

### + Clogged oil filter reduces the service life of the engine.

The saturated (clogged) filter allows circulation of dirty oil, shortening the lifespan of the engine and its components. That's why when changing the oil, also change the oil filter.

### + Dirty air filter increases fuel consumption.

The air filter protects the engine against ingress of dust and other particles. In addition, the dirty air filter increases fuel consumption and emission of pollutants.

### + Saturated fuel filter will cause engine to lose power or fail to start.

The fuel filter prevents dirt from entering the engine, clogging the injector unit or burning the fuel pump. That's why it is critical to check the filter regularly.

### + Clogged cabin air filter causes breathing problems.

The cabin air filter retains pollutants, dust and mites that cause severe breathing problems. That's why it has to be changed periodically.

## WHY MANN-FILTER?

### ✓ The MANN-FILTER oil filter enhances the longevity of your engine.

Our MANN-FILTER filter media are built to meet the future-facing technical requirements of high-performance engines. We use a non-return membrane that keeps the engine oil in the filter as soon as the engine stops. This offers an optimized and even faster oil supply on start-up.

### ✓ The MANN-FILTER air filter improves engine performance and efficiency.

The MANN-FILTER air filter has unique papers, even folds and perfect sealing that protect the engine against ingress of dust.

### ✓ The MANN-FILTER fuel filter generates savings.

The MANN-FILTER fuel filter offers high performance and economy. With greater filtration capacity, it produces better engine performance.

### ✓ The MANN-FILTER cabin air filter protects health.

The MANN-FILTER cabin air filter retains the smallest particles of air dust, protecting health of the vehicle's occupant, in addition to eliminating unpleasant odors.

# Applications
