

**MANN
FILTER**

**Our Product. Your Solution.
For Most European Trucks.**

**MANN
FILTER**

MANN-FILTER - Perfect parts. Perfect service.

MANN-FILTER - always the right choice.

At MANN-FILTER we're experts in **OE quality and aftermarket filters**. Our extensive range of 6,800 superior original equipment quality filters protect engines, passengers and machines in **over 300,000 applications**. Thanks to over **70 years experience and filtration expertise**, our innovative, premium OE and boxed yellow-green aftermarket filters are built to withstand the demands placed on vehicles and machines and to meet stringent safety and industry standards.

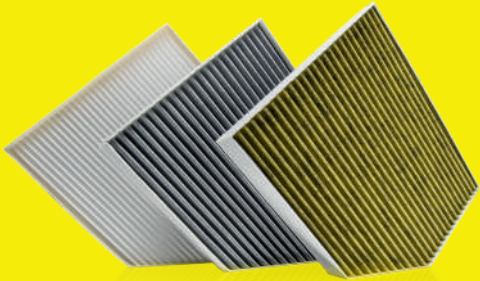

MANN-FILTER: for first fit and the automotive aftermarket.

MANN-FILTER benefits that pays off for you!

- +** **The best in the long run** – With MANN-FILTER you get maximum service intervals and optimal engine performance with long-life filters
- +** **We fit your fleet** – MANN-FILTER offers the widest range with a broad coverage for trucks around the globe to keep your fleet running
- +** **We care** – Our product range goes beyond essential basics – our portfolio has all the solutions you need to protect your vehicle's engine, its surrounding environment and, importantly, the driver
- +** **Always ready to go** – With filters and accessories created to minimize cost and time-intensive downtimes from the start, thanks to our OE quality and first-class filtration

Product Portfolio

Your vehicle represents a substantial investment, and by fitting inferior quality filters, you could severely reduce the life of your engine. So fit the best, MANN-FILTER after all they are **worth every cent!**

Cabin Air Filter

Our cabin air filter for cars **traps almost 100% of harmful particulates** from the air you breathe inside your truck. Stay healthy in **high-density traffic areas** with poor air quality.

Oil Filter

Keep engine oil flowing freely and **prolong engine life** with an oil filter that **removes even the finest particulates** from oil circuits.

Air Filter

Soot, particles, pollen and other substances are a constant companion along every kilometer of the road. Choose an engine air filter that enable all the vital combustion and ignition elements in your engine to **perform at their best.**

Fuel Filter

Separate dust, rust, water and all other dirt particles that cause wear. **Protects sensitive components** and ensure the operational reliability of the engine with a quality fuel filter.

Remember to: Always change the oil filter and the other filters as well.

+ WHY MAKE THE CHANGE?

+ Clogged oil filter reduces the service life of the engine.

The saturated (clogged) filter allows circulation of dirty oil, shortening the lifespan of the engine and its components. That's why when changing the oil, also change the oil filter.

+ Dirty air filter increases fuel consumption.

The air filter protects the engine against ingress of dust and other particles. In addition, the dirty air filter increases fuel consumption and emission of pollutants.

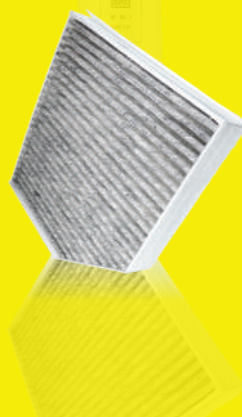

+ Saturated fuel filter will cause engine to lose power or fail to start.

The fuel filter prevents dirt from entering the engine, clogging the injector unit or burning the fuel pump. That's why it is critical to check the filter regularly.

+ Clogged cabin air filter causes breathing problems.

The cabin air filter retains pollutants, dust and mites that cause severe breathing problems. That's why it has to be changed periodically.

WHY MANN-FILTER? ✓

✓ The MANN-FILTER oil filter enhances the longevity of your engine.

Our MANN-FILTER filter media are built to meet the future-facing technical requirements of high-performance engines. We use a non-return membrane that keeps the engine oil in the filter as soon as the engine stops. This offers an optimized and even faster oil supply on start-up.

✓ The MANN-FILTER air filter improves engine performance and efficiency.

The MANN-FILTER air filter has unique papers, even folds and perfect sealing that protect the engine against ingress of dust.

✓ The MANN-FILTER fuel filter generates savings.

The MANN-FILTER fuel filter offers high performance and economy. With greater filtration capacity, it produces better engine performance.

✓ The MANN-FILTER cabin air filter protects health.

The MANN-FILTER cabin air filter retains the smallest particles of air dust, protecting health of the vehicle's occupant, in addition to eliminating unpleasant odors.

Product Portfolio

In addition to air, oil, fuel and cabin filters, our portfolio also includes special products for a complete line, far beyond the conventional!

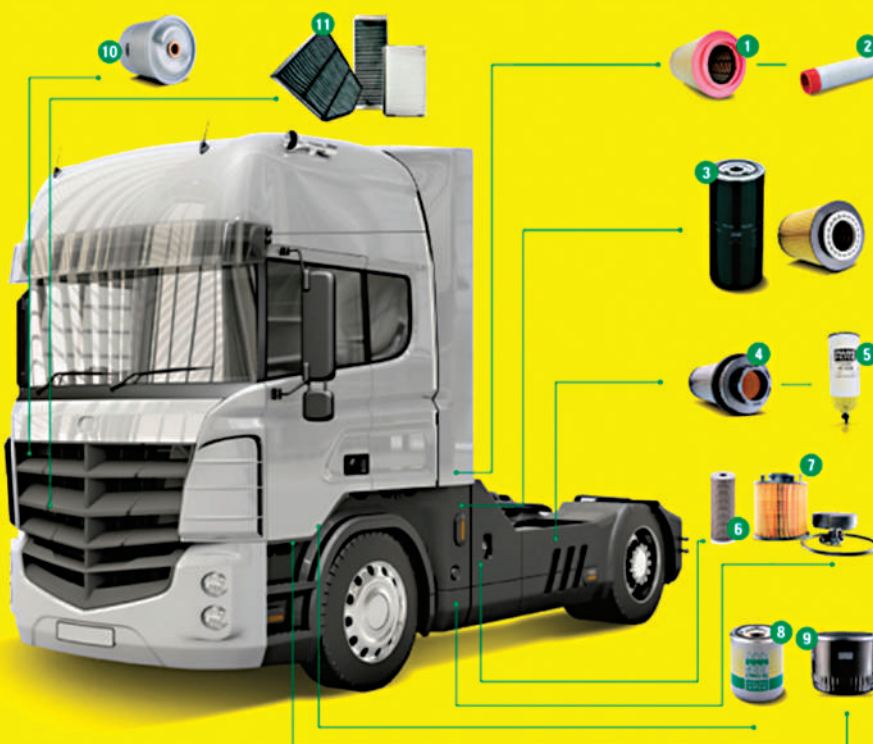

Special Applications

To know our line of Urea filters, Air dryers, Refrigeration and Centrifugal, scan the below QR Code:

Discover the filters installed in the truck:

- 1 Air filter primary element
- 2 Air filter secondary element
- 3 Engine oil filter
- 4 Fuel filter element
- 5 Fuel filter / water-separator
- 6 Hydraulic filter
- 7 Urea filter
- 8 Air dryer filter
- 9 Hydraulic transmission filter
- 10 Centrifugal filter
- 11 Cabin air filter
