MANN-FILTER – Perfect parts. Perfect service.

The right filter in an instant!

At MANN-FILTER we're experts in OE quality and aftermarket filters. Our extensive range of 6,800 superior original equipment quality filters protect engines, passengers and machines in over 300,000 applications. Thanks to over 70 years experience and filtration expertise, our innovative, premium OE and boxed yellow-green aftermarket filters are built to withstand the demands placed on vehicles and machines and to meet stringent safety and industry standards.

Benefits that pay for you:

- ⊕ 100% OE quality
- ⊕ Long service life even under the harshest conditions
- ⊕ Extensive range

Product Portfolio

The service life and efficiency of your off-highway industrial equipment depend in large part on making the right choice of filters. High-quality filters are essential for functional reliability, durability and energy efficiency of your vehicles. Don't compromise and opt for MANN-FILTER products in 100% original equipment quality. All MANN-FILTER products are manufactured according to the latest international production and test standards for the off-highway industrial industry. They stand for best component quality, have shown to excel due to consistently high and reliable filtration performance and secure a long service life.

Oil Filter

Keep engine oil flowing freely and **prolong engine life** with an oil filter that **removes even the finest particulates** from oil circuits.

Fuel Filter

Separate dust, rust, water and all other dirt particles that cause wear. **Protects sensitive components** and ensure the operational reliability of the engine with a quality fuel filter.

Air Filter

Soot, particles, pollen and other substances are a constant companion along every kilometer of the road. Choose an engine air filter that enable all the vital combustion and ignition elements in your engine to **perform at their best**.

Special Applications

Our **extensive range** includes products designed specifically to protect your systems from wear and damage caused by harmful particulates and deposits.

Reliability, even under the heaviest loads!

Whether in excavators or dump trucks: filters for construction and mining machinery are subjected to highly demanding operating loads. The challenges here are the large amounts of dust and organic particles, as well as the enormous mechanical loads. MANN-FILTER products are synonymous with optimal protection for your machine, long running times and 100% original equipment quality.
