Part number prefix explanation

AU	Cooling liquid filter element	MWK	Fuel filter for motorcycles
BF	Felt fuel filter element	P	Fuel filter element
BFU	Metal-free felt fuel filter element	PL	Spin-on fuel filter for PreLine®-system
BL	Bowl assembly	PU	Metal-free fuel filter element
C	Air filter element	PF	By-pass oil filter element
CF	Secondary air filter element	PFU	Metal-free by-pass oil filter element
CP	CompacPlus® air filter element	SP	Service pack
CS	Air filter element (filter material foamed plastic)	TB	Air drying box for air braking systems
CU	Cabin filter element	U	Urea filter
CUK	Cabin filter element with activated carbon	W	Spin-on lubricating oil filter
DH	Diesel heater	WA	Cooling liquid filter
Di	Gasket	WD	Spin-on oil filter for higher pressures
H	Oil filter element	WDK	Spin-on fuel filter for higher pressures
HU	Metal-free oil filter element	WH	Spin-on hydraulic oil filter
HD	Oil filter element for high pressure filters	WK	Spin-on fuel filter or inline filter
LB	Air oil separator box	WP	Spin-on oil filters for secondary flow or combined primary/secondary flow
LC	Element for crankcase ventilation	ZR	Rotor for oil centrifuge
LD	Air oil separator element for compressed air	...KIT	Product comprising filter element + non-filter installation part
LS	Removal tool	-2	Set, comprising several identical or different filter types, e.g. C 3698-2
LSK	Removal tool case	...n/t/x/y/z	Gasket enclosed
MH	Oil filter element for motorcycles		
MW	Spin-on oil filter for motorcycles
